The report of the City Clerk for the fiscal year ending June 30, 1911, was read, accepted and ordered filed.

The claim of J.M. McMahon for \$9.00, being for \$3.00 paid by him for labor to D. DePauli and \$6.00 paid by him for demurrage on car of oil, was allowed and ordered paid.

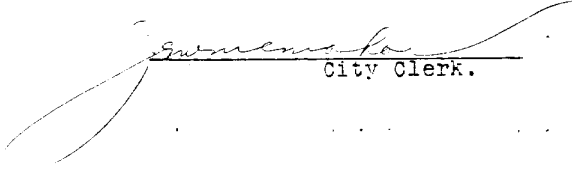

A communication from Western States Gas and Electric Co., setting forth what purported to be meter readings for August Power, but what had no connection whatever with the terms of our contract or relation to the bill for August power, was read and filed.

R.M. Soto Esq., was present and stated that it was his impression that it was the wish of the Board that Judge Jones and he prepare the necessary proceedings to proceed with the street work.

Some discussion of the work at the pumping plant was had. It developed from statements of Engineer Fink that it was the intention of Engineer Henderson to arrange the two pumps so that they could not be compounded. This drew from Superintendent Henning a vigorous protest, as this would do away with our high-pressure fire system. It was reported that Henderson would be on the ground to-morrow.

On motion, the Board adjourned until September 28, 1911, at the usual hour and place.

Attest:

City Clerk.
